ARTICLE V

Architectural Control

a) In order to control design and location of the houses and other improvements to be constructed, erected, placed, or installed (hereinafter "improvements") upon the lots in the Subdivision, the Declarant hereby creates an Architectural Review Committee (hereinafter "Committee") for the purpose of reviewing, approving, suggesting changes to, and rejecting plans and specifications for such improvements (regardless of when such Improvements are made), and the landscaping of each lot. This Committee is also created for the purpose of reviewing, approving, suggesting changes to, and rejecting swimming pools, out buildings, boat houses, ramps, piers, driveways, enclosures for satellite dishes, and if Declarant so desires, for mailbox design. This Committee will be responsible for the control of size, color, materials, and content of rental and sales signs in this Subdivision, and for the approval or disapproval of boats, boat trailers, house trailers, motor homes, tractor trailer trucks, or any other such vehicle, that are kept or maintained or located upon any lot unless located within enclosed garages. The Committee will also be responsible for the control of temporary construction shelters or vehicles in this Subdivision.

b) The Committee shall consist of three persons designated or appointed from time to time by the Declarant, its successors or assigns, one of whom shall be appointed from among lot owners. After 90% of the lots in the Subdivision are sold and 90% of undeveloped acreage is sold by the Declarant, its successors or assigns, said Committee shall be elected by a majority vote of the Board of Directors; provided, however, Declarant, its successors or assigns, shall be entitled to at least one Committee member until all of its lots in this Subdivision have been sold.

c) Except within the building site (unless within 20' of the main dwelling), no trees of any kind in excess of 6 inches in diameter at ground level may be removed from any lot without prior approval of the Committee. No building, fence, wall, outbuilding, or any other accessory feature to the dwelling or any other structure upon any lot shall be commenced, erected, placed, maintained, or altered on any lot or combination of contiguous lots until the Complete Construction Plans (hereinafter "Plans") are approved in writing by the Committee or its designated agents.

d) The Plans include the complete construction plans, the plot plan (showing proposed location and elevation of such building, fences, walks, drives, parking area, etc) proposed building plans and specifications, exterior color, finish, and materials. The areas over which the approval shall be required shall include but shall not be limited to the size and plan of the principal residential structure, and all accessory buildings, structures and improvements on the lot, the location of the well, the size and plan of the garage or carport, location and manner of construction of each driveway, swimming pool, utility building, patio, tennis court, and other improvements for athletic, recreational, or gymnastic purposes, and all other exterior improvements, the composition and color of raw and finished materials used on the exterior of all structures, and the location and type of any landscaping, shrubbery, and other plantings.

e) The Committee or its designated agents shall have thirty (30) days after physical receipt of the plans to accept or reject the same in whole or in part. If no response by the Committee has been made in writing within said 30 days, the plans shall be deemed to be approved as submitted. After the plans are approved and after the Committee gives written permission for construction to begin, the actual construction shall be commenced and completed in accordance with the approved Plans, together with the requirements of the Declaration and, in this regard each Owner shall provide the Committee with the foundation survey as soon as it is made. The Committee shall have the right to waive setback violations when the remedial costs of correcting such violation, in the Committee's opinion, would impose undue hardship upon the violator.

f) The actual construction shall be the responsibility of the Owner of the lot and his builder. Any permission granted for construction under this covenant and any designation of approved licensed contractors shall not constitute or be construed as an approval, warranty or guaranty, expressed or implied, by the Declarant or the Committee or its designated agent of the structural stability, design or quality of any building or other improvement or of the contractor who constructs such buildings or other improvements.
